

Teacher training course

"Teaching English to Digital Natives" Part two

In this seminar we will be exploring new strategies to enable us to prepare our students for the challenges of life in 21st Century.

We will also look at the differences between digital natives and digital immigrants and how to bridge the gap by using a blended mix of traditional and digital learning resources both in the classroom and at home.

We speak about the Oxford platform and we see some new books for next year.

The seminar is open to all English speakers.
